

Avanti Acoustical Ceiling Panels

Interior Architectural Solutions

Avanti Acoustical Panel Ceiling provides exceptional sound absorption and gives an elegant monolithic look using a high light reflectance white Nubby cloth or our polyester colour fabric finish. Avanti Panel ceiling is a custom manufactured ceiling to your architectural requirements. Mounting hardware is concealed to ensure crisp, unobtrusive panel joints.

Acoustical core

Resin edge-hardened 6 lb/ft3 fiberglass. Inorganic, durable and dimensionally stable.

Sound absorption

1" thickness with open weave fabric finish provides NRC = .80.

Sizes

Maximum length not to exceed 120". maximum width not to exceed 48".

Finishes

Standard white Nubby cloth or 100% polyester colour fabric. Custom fabrics invited for evaluation.

Mounting

See rail mounting Detail Sheet D-4.

Fire Safety

All panel components have Flame Spread Ratings less than 25 (Class A) per ASTM E84.
